Revenue from property development sales for FY2015 was RMB1,044.5 million, a 16% increase from RMB899.3 million in FY2014, mainly due to higher sales from parking lots and higher total NSFA of approximately 162,754.7 sqm (FY2014: 159,615.0 sqm).

Property development business

Property development sales approximating RMB387.6 million was 17% lower for 4Q2015 as compared to 4Q2014. The lower sales was mainly due to smaller total net saleable floor area ("NSFA") of approximately 51,481.0 sqm (4Q2014: 74,347.1 sqm). Property development sales for FY2015 was approximately RMB1,044.5 million, with an increase of 16% as compared to FY2014 mainly due to higher sales arising from the sale of parking lots as well as higher total NSFA of approximately 162,754.7 sqm (FY2014: 159,615.0 sqm).

Revenue from property development sales for FY2015 was mainly from the following projects, namely Weiye Central Park Phase III & IV, Weiye Xiangdi Bay Phase III, Weiye Tiandao International, Weiye TianHeShuiAn, and Weiye West International Plaza, which contributed approximately RMB370.8 million, RMB187.1 million, RMB169.0 million, RMB 164.1 million and RMB58.4 million, respectively.

The GP margin of property development business for 4Q2015 was 13% higher than 4Q2014 mainly due to higher sales of parking lots from the construction of Weiye Xiangdi Bay Phase III, where the cost of the construction has been apportioned according to the total NSFA. The GP margin for FY2015 was relatively consistent with that of FY2014.

Housing construction business

As part of the Henan local government's urbanisation plan, the Group was contracted by the former to build resettlement houses. As of 31 December 2014, the construction of the resettlement houses phase I has been completed in accordance with the construction agreement. Revenue recognised

for FY2015 was approximately RMB113.3 million arising mainly from construction of additional ancillary facilities as requested by the local government as well as interest cost recoverable from the same.

Pursuant to the construction agreement entered with the local government, the Group would be able to recover from the local government interest cost incurred at a pre-determined interest rate. GP Margin for housing construction business for FY2015 was lower as compared to the same period of last year. This was mainly due to such portion of the actual interest cost incurred during FY2015 that exceeded the pre-determined interest rate and could not be recovered from the local government.

#### Equipment business

The sales of equipment comprised mainly sales of clean room equipment, air purifier, grilles, diffuser and marine damper products. Sales in 4Q2015 was 38% higher as compared to the same period of last year mainly due to sales of new product – Air Purifier “AiJiaBao”. FY2015 sales was 11% higher compared with that in the same period of last year mainly due to an increase in sales of clean room equipment and sales of new product – Air Purifier “AiJiaBao”.

The GP margin for equipment business for 4Q2015 and FY2015 were higher as compared to the same period of last year mainly due to higher sales volume of cleanroom equipment that reduced unit fixed overhead costs and sales of air purifier which fetched higher gross profit margin.

#### Other income

#### Selling and distribution expenses

The higher selling and distribution expenses for FY2015 was in line with the increased number of projects during the financial year ended 31 December 2015.

#### Administrative expenses

Administrative expenses for 4Q2015 and FY2015 were higher as compared to the same period of last year mainly due to listing expenses incurred to date relating to the Company’ application for dual primary listing on Hong Kong Stock Exchange of approximately RMB15.6 million and listing of Eindex Group on Singapore Stock Exchange of approximately RMB4.9 million. Excluding the listing expenses, administrative expenses for FY2015 were lower as compared to that of last year mainly due to lower travelling and office administrative expense incurred in the current period under review.

#### Finance expenses

## Share of loss of investment in joint venture

## Change in taxation

The decrease in taxation for FY2015 was mainly due to the following:

- (i) Lower provision for deferred tax liabilities as a result of lower fair value gain from investment properties and investment properties under development this year amounting to RMB5.7 million (FY2014: RMB61.9 million); and
- (ii) Lower provision of withholding tax on undistributed profits as a result of the lower fair value gain from investment properties and investment properties under development this year amounting to RMB1.7 million (2014: RMB18.6 million).

This was partially offset by higher provision of corporate income tax this year of approximately RMB13.5 million due to higher taxable profit in the period under review.

## B. Decrease in Fair Value Adjustment

Daimashi is a joint venture between the Group and Zhengzhou Century CITIC Real Estate Co., Ltd whereby both the Group and Zhengzhou Century CITIC Real Estate Co., Ltd intend to develop the land held by Daimashi. The decrease was mainly due to the sharing of the loss incurred by the joint venture during the period under review.

The decrease in investment properties and investment properties under development of approximately RMB65.0 million was mainly due to a disposal of an investment property and a reclassification of an investment property to assets held for sales.

The increase in the amount due from joint venture partner was mainly due to the interest accrued during the period under review.

Non-current trade and other receivables represents a deposit placed pursuant to a collaboration agreement dated 14 September 2015 with Shenzhen Huibang Investment Management Co., Ltd (“Shenzhen Huibang”) in connection with the development of the land-use rights in Shenzhen city Longgang district Longdong community Yuansheng area (“Yuansheng Project”), as previously announced on 14 September 2015. In accordance with the collaboration agreement, should the Yuansheng Project be terminated due to governmental reason, the deposit placed shall be refunded in full together with interest based on market rate.

The decrease in properties held for sale of approximately RMB188.6 million was mainly due to the sales of property development projects, such as Weiye Xinxiang Central Park Phase III&IV, Weiye Xiangdi Bay Phase III, Weiye TianHeShuiAn, Weiye Tiandao International and West International Plaza, partially offset by progressive completion of property development projects in this quarter, such as Weiye Xinxiang Central Park Phase V.

The increase in trade and other receivables of approximately RMB557.3 million was mainly due to increase in accrued income of resettlement house of approximately RMB113.3 million, deposit paid to Zhengzhou land authority and Zhengzhou finance authority for land use right bidding of total approximately RMB361.5 million and increase in prepaid expenses relating to purchase of building materials of approximately RMB47.7 million.

The amount due from joint venture represents the advances to Daimashi, which were unsecured and non-interest bearing.

The increase of assets classified as held for sale was mainly due to the reclassification of an investment property of which the sales was expected to complete by FY2016. This was partially offset by the completion of a disposal of a leasehold property in 2Q2015.

The increase in trade and other payables was mainly due to higher payables as a result of construction of ongoing project such as Weiye Central Park Phase V.

The decrease in advance receipts from sale of properties was mainly due to the recognition of sales from Weiye Xiangdi Bay Phase III and Weiye TianHeShuiAn during the period under review.

The decrease in amount due to directors was mainly due to the full repayment of the same during 3Q2015.

The increase in loans and borrowings was mainly due to additional long term loans obtained to finance the development of property projects.

The increase in tax payables was mainly due to higher provision of income tax for the current financial period.

The increase in the deferred tax liabilities was mainly due to the provision for deferred tax liability relating to the withholding tax on undistributed profits of approximately RMB13.0 million and fair value gain from investment properties and investment properties under development amounting to RMB5.7 million.
